

ORGANIC FALL RESTORE PROGRAM

After a stressful 2021 growing season, lawns are ready to be safely restored using The Andersons line of organic, OMRI-Listed products. These products, Biomend® 5-5-5, Biomend 10-0-6, and Humic DG™ CharX™, deliver the organic nutrients and soil-boosting ingredients perfect for fall lawns.

Humic DG™ CharX™

Humic DG CharX harnesses the power of humic acid and biochar in a 50/50 blend, providing the benefits of the more quickly-available humic acid and the long-term soil building qualities of biochar.

- The Andersons Dispersing Granule (DG) Technology provides hundreds of thousands of small particles of humic acid and biochar after exposure to water, allowing these microparticles to move through the turf canopy
- Delivers stable carbon to soil, increasing nutrient uptake, improving soil moisture retention, and building better permanent soil structure
- Contains karrikins, a family of bioactive compounds that stimulate root growth

Biomend® 5-5-5 | 10-0-6

Biomend 5-5-5 and 10-0-6 feature all natural and organic nutrient sources and contain no biosolids, manure or wastewater byproducts. Utilizing a plant-based soybean meal for a portion of the nitrogen source, these products do not emit an overwhelming odor like biosolid/poultry fertilizers.

Biomend 5-5-5 and 10-0-6 also contain humic acid. Humic acid is a natural soil conditioner, organic chelator, and microbial stimulator that provides the following benefits:

- Supplies an oxidized, soluble carbon source, leading to long-term improvement in soil pH
- Enhances efficiency of applied nutrients and increases availability of soil phosphorus
- Retains soil moisture and enables better water penetration in the soil, resulting in reduced water requirement
- Chelates soil micronutrients, increasing their availability

APPLICATION RECOMMENDATIONS

FALL OVERSEEDING

Designed to aid in germination and get new seeds off to a strong start.

MID-SEPTEMBER

Biomend® 5-5-5 at 10.0 lbs./1000 sq. ft.

Humic DG™ CharX™ at 4.0 lbs./1000 sq. ft.

MID-OCTOBER

Biomend® 10-0-6 at 5.0 lbs./1000 sq. ft.

FALL MAINTENANCE

Designed to increase the efficiency of fall fertilizer applications.

MID-SEPTEMBER

Biomend® 10-0-6 at 5.0 lbs./1000 sq. ft.

Humic DG™ CharX™ at 2.0 lbs./1000 sq. ft.

MID-OCTOBER

Biomend® 10-0-6 at 5.0 lbs./1000 sq. ft.

PRODUCT SPECIFICATIONS

	Humic DG™ CharX™	Biomend® 5-5-5	Biomend® 10-0-6
Description	Organic Soil Amendment (Humic DG + biochar)	Organic Fertilizer	Organic Fertilizer
OMRI Listed	Yes	Yes	Yes
Product Code	ASPBIOHU4	ASP5HUW50	ASP10HUW50
Product Size	SGN 200	Standard 215-240	Standard 215-240
N Source	N/A	Sodium nitrate, soybean meal	Sodium nitrate, soybean meal
Application	1-4 lbs./1000 sq. ft.	5-15 lbs./1000 sq. ft.	2.5-10 lbs./1000 sq. ft.
Packaging	40-lb. bag 50 bags/pallet	50-lb. bag 40 bags/pallet	50-lb. bag 40 bags/pallet
