

# NUTRIENTS FOR ORGANIC USE

Since 2016, The Andersons has been a leader who is increasing access to organic approved nutrients into traditional fertilizer supply chains. As your organic partner, we manufacture and distribute reliable and user-friendly nutrition and carbon for row crops, vegetables, fruits, home gardens, lawn/landscapes and more. All organic products from The Andersons are OMRI listed and several are manufactured with our patented DG Technology.

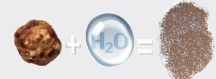

**Coming soon in 2020: BioChar DG™ and water soluble organic liquid products!**

The **OMRI Listed® Seal** assures the suitability of a product for certified organic production, handling, and processing in the United States. **As best practice, the farmer should confirm all inputs are approved by their organic certifier, prior to use.**

For more information: [www.omri.org](http://www.omri.org)

The Andersons **Dispersing Granule (DG) Technology** is utilized in manufacturing several OMRI-listed products. This technology creates spherical and ultra-dry particles. These granules rapidly disperse upon contact with soil moisture, creating tens of thousands of microparticles. This greatly increases surface area and allows for faster breakdown and availability of essential plant nutrients and soil amendments.

## ORGANIC PRIMARY NUTRIENTS

Product	Total Nitrogen	Available Phosphate	Soluble Potash	Available Sulfur	Tote Bag Size	Bag Size	Bags per Pallet	DG Technology
<b>Innova®</b>	7.0%	1.0%	2.0%	-	2000 lb	40 lb	50	No
<b>Chilean Nitrate</b>	15.0%	-	2.0%	-	2645 lb	50 lb	56	No
<b>SmartPhos® DG Natural</b>	-	8.0%*	-	-	2000 lb	-	-	Yes
<b>Sulfate of Potash</b>	-	-	50.0%	17.0%	2000 lb	-	-	No
<b>Allganic® Potassium</b> water soluble grade	-	-	52.0%	18.0%	2645 lb	50 lb	56	No
<b>Biomend® 10-0-6</b>	10.0%	-	6.0%	-	-	50 lb	40	No
<b>Biomend® 5-5-5</b>	5.0%	5.0%	5.0%	-	-	50 lb	40	No

*Biomend blends also contain Humic DG.*

*\*20% total phosphorus*

### NITROGEN (N)

**Innova** is a slower release soybean-crush by-product. **Chilean Nitrate** is a prill that can be dry applied or solubilized into a liquid for quickly available nitrate nitrogen. **Biomend** contains both **Innova** and **Chilean Nitrate**.

### PHOSPHORUS (P)

**SmartPhos DG Natural** is a granulated soft rock phosphorus; this product is included in the **Biomend 5-5-5** formulation.

### POTASSIUM (K)

Ag grade **Sulfate of Potash** is widely accepted in organics as the safest and most reliable way to raise soil K levels. It is included in both **Biomend** blends. We also offer **Allganic Potassium**, a water soluble potash, for direct ship if desired.

## ORGANIC SOIL AMENDMENTS

Product	Calcium (Ca)	Magnesium (Mg)	Sulfur (S)	Humic Acid	Available in Bulk	Tote Bag Size	Bag Size	Bags Per Pallet	DG Technology
<b>NutraLime® OP</b> (Hi-Cal)	30.0%	4.0%	-	-	Yes	2000 lb	-	-	Yes
<b>NutraLime® OP</b> (Hi-Mag)	20.0 - 21.0%	9.0 - 12.0%	-	-	Yes	2000 lb	40 lb	70	Yes
<b>NutraSoft® OP</b>	21.0%	-	16.0%	-	Yes	2000 lb	40 lb	70	Yes
<b>Black Gypsum DG®</b> (10% Humic Acid)	17.0%	-	13.0%	10.0%	Ask	2000 lb	50 lb	45	Yes
<b>Black Gypsum DG®</b> (21% Humic Acid)	12.0%	-	8.9%	21.0%	No	2000 lb	50 lb	45	Yes
<b>Humic DG™</b>	-	-	-	70.0%	Ask	2000 lb	40 lb	50	Yes
<b>K-Mate SG™</b>	-	-	-	99.0%	No	-	50 lb	40	No

Black Gypsum 21% and Humic DG are also available in smaller grading than ag-size grading (240 SGN) if desired.

For more information about our entire humic line including additional research and resources, visit [AndersonsHumates.com](http://AndersonsHumates.com)

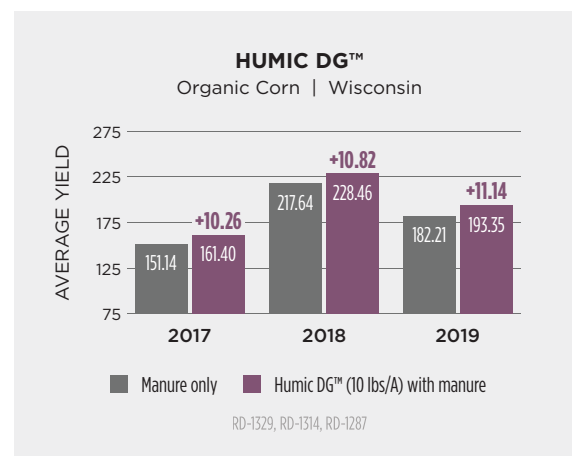

## ORGANIC GRANULAR MICRONUTRIENTS

Product	Bag Size	Bags Per Pallet
<b>Elemental Sulfur</b>	50 lb	54
<b>15% Boron</b>	50 lb	40
<b>35.5% Zinc Sulfate Granular</b>	50 lb	44
<b>32% Manganese Sulfate Granular</b>	50 lb	44
<b>25% Copper Sulfate Granular</b>	50 lb	40t

Our micronutrients are typically sold as full pallets; ask for discounts on volume quantities (mix and match items) direct from the supplier.

## ORGANIC LIQUIDS

Product	Package Size	Density (lbs/gal)
<b>Fulvic LQ™</b> (4% Fulvic Acid)	2 x 2.5 gal or Totes	8.5

**Fulvic LQ:** Fulvic LQ is a high-purity 4% fulvic acid that contains a high concentration of the measurable fulvic fraction of humic substances to drastically increase absorption and delivery into the plant. It has a clearer golden color and is compatible in tank-mixes.

For select items, available in smaller volumes, visit The Andersons on Amazon at [amazon.com/theandersons](http://amazon.com/theandersons)
