**PRODUCT INFORMATION:** Foltec SG is a concentrated soluble granule fertilizer for foliar spray applications for Turf, Nursery or Agriculture.

**DIRECTIONS FOR USE:** Foltec SG can be applied to golf greens and all other turf types, ornamental and specialty crops including fruits, vegetables, trees, vines, and flowers. Application rates and frequency are dependent upon soil and climate conditions present. See chart below for application rates and dilution rates.

**ADDITION TO THE SPRAY TANK THROUGH THE:**

**INDUCTOR – THE EASIEST METHOD FOR ADDING FOLTEC SG TO THE SPRAY TANK.**
- Fill tank with at least half of water volume required and begin agitation.
- Open package and slowly pour Foltec SG into the inductor while continuing to add the required amount of water.

**TOP TANK OPENING – REMOVE BASKET STRAINER TO SPEED THE PROCESS.**
- Fill tank with at least two thirds of water volume required and begin agitation.
- Open package and slowly pour Foltec SG into the tank while continuing to add the required amount of water.
- Foltec SG has been tested and shown to be very soluble with adequate agitation, typical of most self-contained spray units. The basket strainer can be used, but will require more time to wash material through.

**COMPATIBILITY WITH OTHER CHEMICALS:** Check our website for a current list of compatible control products and nutrients. You can also perform a compatibility check by:
- Mixing each product in a clear container in the same proportion to be used in the field
- Agitating for at least 60 seconds
- Visually observing for precipitate

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn.
