CONTRACT MANUFACTURING
AND ADVANCED GRANULE TECHNOLOGIES

Toll Manufacturing • Leading Carrier Development • Custom Formulation
• Technical & Purchasing Expertise • Advanced Research & Innovation
PARTNERING WITH THE ANDERSONS MEANS YOU CAN COUNT ON US FOR FULL ACCESS TO:

- Our on-site Analytical Laboratories can provide you the opportunity to create unique new products while meeting rigid EPA requirements.
- Dedicated insecticide, fungicide and herbicide production lines.
- Proprietary adjuvants and solvents.
- Custom blending and granulation capabilities to meet your package specifications and cost requirements.
- Expertise in formulating and product development to assure compliance with State and Federal registrations.
- A value added, flexible and compatible supply chain.

The Andersons is a technology driven company. Whether we’re applying our advanced technology to improving the quality of the products we make or the support services we provide, our customers are assured of receiving the highest level of professionalism.

Our Regional Production Facilities provide logistical advantages that facilitate an optimum “supply chain” philosophy.

CAPABILITIES

- Thirteen production lines
- Dedicated insecticide lines
- Milling, aspiration and custom blending systems
- Custom granulation
- Computer-controlled batching
- Particle size reduction and screening
- Flexibility to fill small containers to bulk trucks
- Automatic palletizing
- Standard pallet or store-ready display
- Full range of logistical capabilities include FOB docks, direct to warehouse, direct to store, LTL and truckload

CAPACITY

- Over one million square feet of warehouse space
- Over 200,000 tons of bulk raw material storage

Quality/Service/Technology – The Andersons’ mark of accuracy, efficiency, innovation and flexibility. Our ten facilities contain state-of-the-art technology and are strategically located to serve the U.S. and international markets. What’s more, all team members have a clear focus on the QST principle.
High Volume Capacity And Unique Capabilities

Our contract manufacturing capabilities can lead to many advantages for your operation. From product development and marketing, to the efficient economies we bring to the table, partnering with us can positively impact your profitability and success.

This means you will have a dedicated partner prepared and ready to manufacture your entire product offering. We have the expertise to avoid you with packaging development and production while in compliance with state and federal regulations. We can even help you through each state's registration maze.

Our contract manufacturing capabilities can lead to many advantages for your operation. From product development and marketing, to the efficient economies we bring to the table, partnering with us can positively impact your profitability and success.

Formulating With Our Advanced Granule Technology Provides You With Cutting Edge Product Benefits And Marketing Advantages

Our contract manufacturing capabilities can lead to many advantages for your operation. From product development and marketing, to the efficient economies we bring to the table, partnering with us can positively impact your profitability and success.

Our granule expertise is a hallmark of The Andersons Plant Nutrient Group. With our discovery and commercialization of the proprietary Dispersing Granule (DG) concept, we've taken granule carrier basics and advanced them to entirely new performance levels. Our range of carriers now includes DG Lite®, EcoGranule™ and Corn Cob.

Using proprietary technology, we have made some of the most stubborn chemistry perform beyond expectations. Our staff can advise you in your registration strategy and can obtain and transfer federal registration to you, bringing your product to market faster.

As we develop your project from concept to market, we will also advise you in your registration strategy and can obtain and transfer federal registration to you, bringing your product to market faster.

Guide Your Project Every Step Of The Way

PROBLEM DISPOSABLE CARRIERS

</table>

With DG Lite Technology in your Corner you can expect your products to:

- Rapidly develop a quality "instant" when water is administered
- Neatly and renders your pesticide stable
- High uniformly promotes consistent material application
- Extremely durable (RTA >95%)...assures long term efficacy
- Spherical shape delivers consistent fluidity and dependable ballistics
- Environmental/new immediate dispersion virtually eliminates waste

In a matter of minutes, one DG Lite 150 SCN granule is sufficient to control 1,000,000 dispersed particles when contacted with water.

From Concept To Market, We’ll Be There To Guide Your Project Every Step Of The Way

YOUR PARTNER OF CHOICE

Our contract manufacturing capabilities can lead to many advantages for your operation. From product development and marketing, to the efficient economies we bring to the table, partnering with us can positively impact your profitability and success.
Publicly traded since 1996 (NASDAQ: ANDE), The Andersons is a diversified company conducting business across North America in the grain, ethanol, plant nutrient, logistics, and consumer retail sectors.

The Andersons is taking the same dedication and deep market knowledge that filled our elevators with grain almost 70 years ago to create fresh ways to serve our customers. We’re building a cutting edge network of transportation and logistics facilities that maximize our reach. We’re expanding into new markets using patented technology to take our businesses further, faster. We’re developing a line of products that make the grass greener and the yield bigger. We’re repurposing today’s resources into useful solutions for tomorrow and joining the quest for a world run on renewable energy. We’re finding a way to compete on a global level and still feel like a small business, and never losing sight of our simple goal of serving God by serving others.

We’ll be fair and honest, tried and true, because those are the things that got us here. The Andersons story has as much to do with ingenuity as it does with legacy. A story about enduring relationships. A story about a team that is going beyond the ordinary; beyond the status quo; and beyond expectations.

Our Mission:
We firmly believe that our Company is a powerful vehicle through which we channel our time, talent, and energy in pursuit of the fundamental goal of serving God by serving others. Through our collective action, we greatly magnify the impact of our individual efforts to:

• Provide extraordinary service to our customers
• Help each other improve
• Support our communities
• Increase the value of our Company
