

# DIAMOND

9-18-9 | 3-18-18 | 6-24-6 | 5-15-15 | Custom Blends

## PRODUCT INFORMATION

Diamond is a 100% orthophosphate low-salt liquid fertilizer. Phosphorus in this form is immediately available to the plant. Under stressful conditions such as cold soil temperatures, the phosphorus is ready once the roots are able to take up nutrients. Applying Diamond fertilizer will guarantee phosphorus intake from the crop, regardless of soil temperature.

## FEATURES

- Low-salt, chloride free and near neutral pH
- 100% orthophosphate
- 100% water soluble
- Trouble-free
- Compatible with most glyphosate herbicides

## BENEFITS

- Immediate nutrient uptake
- Seeds respond in cold soils
- Increases yield potential

## FREQUENTLY ASKED QUESTIONS

**Q: How much orthophosphate do Diamond products contain?**

A: Diamond products are 100% orthophosphate fertilizer. This means that seedlings can absorb all of the phosphorus right away, even in cold and/or wet soil conditions.

**Q: Am I able to apply Diamond products directly on the seed without fear of germination damage?**

A: Yes, Diamond liquid fertilizers are designed to be applied directly on the seed without causing germination issues. Always follow application rates on the label. Do not apply directly on the seed in saline, alkali, or coarse textured soils.

**Q: Can I add other nutrients to Diamond products?**

A: Yes, any EDTA micronutrients will easily blend in Diamond fertilizers with agitation. Soil amendments such as humic acids and additional nutrients like sulfur and potassium may also be added. Always jar test before blending in a tank.

## APPLICATION

MAXIMUM SUGGESTED APPLICATION RATE IN GALLONS PER ACRE				
SOIL APPLICATION				
Crop	CEC: 15.0 or > OM: 2.5% or >	CEC: 12.0 - 14.9 OM: 2.0 - 2.4%	CEC: 6.0 - 11.9 OM: 0.6 - 1.9%	CEC: < 6.0 OM: < 0.6%
Corn (30" rows)	6.0	5.0	4.0	Inquire about row application in soils that fall within this group
Soybeans (10" rows or less)	5.0	4.0	3.0	
Soybeans (11" to 16" rows)	3.0	2.0	0.0	
Wheat	12.0	12.0	10.0	
FOLIAR APPLICATION				
Corn	1.0-3.0			
Soybeans				
Wheat
