Foltec SG 8-24-8

- Foltec SG is a concentrated soluble granule fertilizer for foliar spray applications for Turf, Nursery or Agriculture.

- Foltec SG is a proprietary combination of dry soluble granules (SG) that create a complete nutrition product that reduces the need for a complex tank mix.

- Each Foltec SG product contains a specific N-P-K ratio along with essential micronutrients, UltraMate SG and sea plant extract.

- Foltec SG is packaged in a resealable foil-lined bag with an easy open tear strip which saves time and effort during mixing and loading.

For California and Oregon Foltec SG product information please refer to our website www.FoltecSG.com

Following is a specimen label that may at some point be revised or otherwise become out of date. It is intended as a guide in providing general information regarding the use of this product. Always read and follow the label on the product container.

To order, contact your local distributor, visit our website: www.foltecsg.com or contact us at 800-225-2639.
PRODUCT INFORMATION: Foltec SG is a concentrated soluble granule fertilizer for foliar spray applications for Turf, Nursery or Agriculture.

DIRECTIONS FOR USE: Foltec SG can be applied to golf greens and all other turf types, ornamental and specialty crops including fruits, vegetables, trees, vines, and flowers. Application rates and frequency are dependent upon soil and climate conditions present. See chart below for application rates and dilution rates.

ADDING TO THE SPRAY TANK THROUGH: THE INDUCTOR – THE EASIEST METHOD FOR ADDING FOLTEC SG TO THE SPRAY TANK.  
• Fill tank with at least half of water volume required and begin agitation. 
• Open package and slowly pour Foltec SG into the inductor while continuing to add the required amount of water.

TOP TANK OPENING – REMOVE BASKET STRAINER TO SPEED PROCESS.  
• Fill tank with at least two thirds of water volume required and begin agitation. 
• Open package and slowly pour Foltec SG into the tank while continuing to add the required amount of water. 
• Foltec SG has been tested and shown to be very soluble with adequate agitation, typical of most self-contained spray units. The basket strainer can be used, but will require more time to wash material through.

COMPATIBILITY WITH OTHER CHEMICALS: Check our website for a current list of compatible control products and nutrients. You can also perform a compatibility check by:  
• Mixing each product in a clear container in the same proportion to be used in the field. 
• Agitating for at least 1 minute 
• Visually observing for precipitate formation

PHOSPHATE NOTICE: This lawn/turf fertilizer contains phosphorus and is only for nonagriculture use on (i) turf during its first growing season, (ii) on turf areas being repaired or renovated, and (iii) on turf where a soil test performed within the last 3 years indicates a phosphorus deficiency. This fertilizer is not for the routine maintenance on turf.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn.
