

# Spring Bracket

## Drill Guide Template

You will need a 3/16" drill to make the hole.

- Step 1. Cut the guide below on the cut line**
- Step 2. Position the guide to the right side and above the Pivot Bracket**
- Step 3. Mark the center line of each Spring Bracket hole**
- Step 4. Drill the holes for the Spring Bracket**
- Step 5. Mount the Spring Bracket as directed on page 2, #3.**
