

Twist-n'Rich™

PORTION-CONTROLLED ENRICHMENT MATERIAL

A NEW TWIST ON PORTION-CONTROLLED ENRICHMENT MATERIAL

PORTION CONTROLLED AND EASY TO DISPENSE

Ensures controlled distribution of enrichment material, helping to keep per diem costs on track. Material may be transferrable at cage change, providing habitat acclimation for animals and further reducing overall costs. With no pulling, tearing or prepping required, Twist-n'Rich can be removed from packaging and immediately dispensed into cages.

ENHANCED CAGE ENVIRONMENT

Twist-n'Rich provides the perfect environmental, physical and mental stimulant for rodents, burrowing animals and foraging primates.

PRECISION MANUFACTURING

Twist-n'Rich is produced from food-grade, human-contact cellulose (paper) manufactured to FDA standards. Precision processes and strict quality control measures help ensure a consistently-portioned product.

BRIGHT WHITE AND DUST-FREE

The bright white color aids in post-operative or toxicology observations. As a virtually dust-free product, Twist-n'Rich is perfect for use with nude mice and avoids clogging.

CERTIFIED AND IRRADIATED

Twist-n'Rich is shipped certified and irradiated. Certified paperwork and certificates of irradiation are available by lot code. This product can also be autoclaved in situ or in bulk.

PRODUCT SPECIFICATIONS AND PACKAGING

Twist-n'Rich is sold by the case. 100-count packs help maintain the integrity of the remaining case contents until needed.

Product Dimensions	8" x 5/32"
Eaches per case	2500
Eaches per inner pack	100
Packs per case	25
Case size	15.5" x 9.5" x 11.25"
Case weight (packaging & contents)	10 lbs.
